

Amendment to the Specification

Please amend the paragraph beginning at line 13 of page 4 to read as follows:

Fig. 2a illustrates an embodiment of the present invention that involves attachment of a user interface to a control shaft by mating of asymmetric cylindrical surfaces. Fig 2b illustrates arcuate lobes of the outer surface of a post coupled to the user interface, while Fig. 2c illustrates a cross-sectional view of an asymmetric cylindrical interior surface of an upper shaft segment, in accordance with an embodiment of the present invention.
